

The 2023 IEEE International Conference on Artificial Intelligence Circuits and Systems (AICAS 2023)

Call for Special Session Proposals

The AICAS 2023 Organizing Committee invites proposals for Special Sessions to be held during the 2023 IEEE International Conference on Artificial Intelligence Circuits and Systems in Hangzhou, China from 11th June till 13th June 2023. The objective is to complement the regular program with sessions on new or emerging topics of particular interest for the AICAS community and which are not included in the conference regular topics.

Special Session Proposals

Each session is expected to have five papers, including one from the organizers. Please note that an author or co-author cannot participate in more than one paper in a special session. Prospective organizers of special sessions should submit their proposals via email to the special session chairs and a copy to the AICAS2023 Secretariat indicating:

- Title and abstract of the proposed session,
- Names, affiliations, and a short biography of the organizers,
- Session motivation and outline (approx. 500 words),
- List of invited papers including authors' affiliations, paper title and abstract (approx. 100 words).

Important aspects in evaluating special session proposals include the timeliness of the topic, quality/track record of the proposers and papers authors, coherence of the session, and expected value added to the overall technical program. Notifications of acceptance will be provided by **Jan. 23, 2023**. ~~Dec 30, 2022~~.

Special Session Co-Chairs,

Maurizio Valle maurizio.valle@unige.it

Shih-Chii Liu shih@ini.uzh.ch

Robert Chen-Hao Chang chchang@nchu.edu.tw

AICAS 2023 Secretariat (secretariat@aicas2023.org)
